SILVER LEAD NEWS-A BIG THING -On the inside we give authentic statements of the yield, etc., of the great sliver lead mines of the world, which, when commines of the world, which, when com-pared with the statements we print below, is anything but discenraging to those who have invested in these leads and stocks. The fol-lowing note was received by R. Shalden, Esq., Thursday. Prof. Douglas has occupied the Chair of Chemistry in the State Univer-sity at Ann Arbor, for eight or ten years past, so that there will be no disputing what he testilian over his own name as being the retestifies over his own name as being the resuit of his analysis:

ANN ARROR, Oct. 28, '63.

R. SHELDEN, Esq., HOUGHTON; — DEAR SIR:

— Yours of October 5th was doly received.

I have this moment compared an analysis of the Galena received by express. It contains 3 25 per cent. of pure silver, or upwards of sixty five pounds of silver to the ton of ore. I suppose that I took an average of the specimen, yet the yield invery large. I send you the result with a sample of the silver ex-tracted. I have worked nights to complete the analysis in order to send it early. I will make a second analysis.
Yours, truly,
S. H. DOUGLAS.

The specimen of silver we saw with the letter. The piece is about the size of a three piece, though not quite so thick. Mr. liams, of the Smelting Works, gives the fol-lowing as the result of his test:

P. L. S. Wongs, Oct. 6, '63. JOHN MARTIN, ESQ ,-DEAR SIE: -I have been working the whole night, after you and Mr. Shelden left me, making an array of the Galena lead ore you gave me some two or three weeks since, which you said you took from the Eldorado Mine. It yielded 2.40 per cent. of cliver, which is nearly the same result as obtained when I tried it before, the same day you gave it to me. Your Ob't. Servant,

By the way our street famps emit decidedly the least amount of light, in proportion to their number, of those of any city with which we are acquainted. The reason is ob ious-the panes of glass surrounding each jet of gas are shockingly dusty and dirtyso that the gas does not " throw its beams even as far as the "little rushlight" which Doctor Watts so feelingly raies. ESTIMATED EXPENDITURES. CAPTURED CORRESPONDENCE. A CONSERVATIVE PRESSURE,

[To the Chicago Tribune.] WASHINGTON, November 15.
The Treasury Department will not, probably, ask for much legislation this winter
The last Congress gave the Secretary authority for nine hundred millions of do lars. Of these he has only used four hun-dred millions, including the fifty millions recently negotiated through New York banks. Ten millions more of this have just been drawn for leaving twelve and a ball

nillions yet to draw. General Meade is in town. The Rapidar seems to be a harder nut to crack than the Rappahannock. More troops are called for, and meantime the army waits. Practically all interest is still concentrated at Chatta

neogs. Colonel Myers, Chief of the Signal Corps is also squelched and ordered to Memphis to report thence to the Adjutant-General of the army. The War Department seems to be acting on the principle of ordering West all heads of bureaus whom it wants to get rid of. It has already out there Adjutant-General Thomas, Surgeon-General Hamond, Quartermaster-general Meigs and commissary-General Taylor, and every in-lication here is that two or three more will peedily follow them.

The Navy Department estimates for next

ear are about one hundred millions, forty illions more than last years. The total estimates presented from all the departments to the Secretary of the reasury, are about twelve hundred milions.

On board one of the blockade runner whose capture was recently announced in these dispatches, were certain important official communications from rebel agents in Europe, to the authorities in Richmond Among them are some letters of Mason etters fixing the complicity of the Lord-Mayor of London with blockade running, n an official way; letters showing in de tail the negotiations with parties in Lon-don for ship building, importing contraband of war, &c.; two long and important letters from Edwin de Leon, the rebe gent at Paris, one to Benjamin, the other

[To the Cincinnati Commercial.] WASHINGTON, Nov. 14. There has been quite a general consu ation of Republican conservative politic ans to-day, with a view, It is said,

Officials consider that the Canadian plot for the release of prisoners is nipped in the bud. The State Department has been in possession of considerable information all along on the subject, but not sufficient to warrant any preparations to resist it, until more fully developed. Upon Lord Lyons' communication exposing the facts, the whole plot has exploded. Many prominent names are mentioned in connec with it.

Intelligence from Grant contains nothing for publication. All is quiet in his military division.

FROM COLUMBUS.

[To the Cincinnsti Gazette.] COLUMBUS, November 15. The soldiers vote will prove to be much greater than was anticipated. It will reach as high as 40,000 or 42,000. Forty-one counties give Brough 18,267, Vallandig-haam 824; Brough's majority, 17,443. By the soldiers' vote we elect Representatives in Adams by 490 mojority; Ashland, 25 or thirty majority; Brown, 200 majority; Marion, Perry and Pickaway, 50 majority each; Sandusky, 200; Tuscarawas, 327 majority; Wayne, 250 majority; Wyan-dotte, 200 majority. In Vintos, the Cop-perhead Representative is elected by 50 perhead Representative is elected by 50 majority over the soldiers' vote. NEWS PROM THE SOUTH. Naw Youn, Nov. 16. The correspondent of the Philadelphia Enquirer, writing yesterday says: Infor-mation just received here from the South, indicates that a large body of North Caro-lina and Geogria Unionists, who have had habitation only in the mountains of Westrn North Chrolina, have made their escape with their arms and much valuable information into East Tennessee. Their they will swell the ranks of General Foster's army. They came to us as original Union men, and will guide and fight with our

volunteers to the end. These men formed themselves into an army, who numbered about five hundred army, who numbered about five hundred men, poorly armed and equipped, but with real courage and patriotism they have dered to give battle to the rebel Regulars at a place called Warm Springs, north of Ashville, Buncombe county. North Caro-lina, and near the Tennessee line. These brave men were making their way toward Knowylle, when they were attacked on Knoxville, when they were attacked on the 29th of October by a party of the 25th North Carolina regiment, under command of Lieutenant Colonel Samuel C. Bryson. who was badly whipped and forced to beat a hasty retreat to Ashville. The rebels lost six killed and thirty wounded; among the killed was Lieutenant Hvat. After the fight the Unionists advanced and took Ashville, as a feint, and came near taking General Vance, son of the Governor, and his staff prisoners. After this, the patrol

band fell back to the mountains.

A letter from Governor Vance, dated Madison county, North Carolina, November 33, says that the enemy have withdrawn from the western portion of North Carolina to East Tennessee. They carried off several prominent citizens in chains. It is said that Dr. Leech, Messrs, Turner Gaither, Christian, and L. Davidson, all Union men of the Holden school, are elected to the rebel Congress from North Carolina. The three first named southerners are certainly chosen

FROM FORTRESS MONTROE. FORTRESS MONROE, Nov. 16. The Richmond Whig of Nov. 14th, con-

tains the following: CHARLESTON, Nov. 12.—The enemy has kept up a moderate fire on Sumter all day rom their mortar batteries and two Montors. One Monitor and a wooden gunboat moved up to Sullivan's Island at noon and shelled the batteries one hour. CHARLESTON, Nov. 13.—The firing of

he enemy from their mortars and rifle

pieces, averaged 2 per minute all last

aight and is still going on this morning. The casualties last night were two killed and one wounded. ATLANTA, Nov. 13 .- The firing of our batteries and the enemy's continue brisk-ly. The enemy has made a movement from right to left, either with a view of diverson in order to attack Lookout Mount-

ain, or to send troops to Burnside. The Richmond Whig has the following: General Imboden is in Alleghany county, co-operating with General Echals. The report of his having a fight and being wounded, is doubtless premature. The Yankees under Averill, have advanced to Covington, Alleghanp county.

PROM WASHINGTON.

Washington, Nov. 16. Epecial to Post General Meade has returned to the army! He will be unable to attend the Gettys-burg Cemetery inauguration on Thursday The President, with Messrs. Seward, Blair, Bates and Welles of the Cabinet will attend. It is proposed that all public uildings shall hangout the national flag on that day.

This morning's Chronicle contains a

conversation held with an intelligent offi-per from General Meade's Headquarters, and who slept the night before last beyond Culpepper. He reports the army in the Outpepper. He reports the army in the highest spirits and eager for a a fight. There was a provalent rumor that for some unexplained reasons not originating with General Meade, the army could have successfully pushed on rapidly after the brilliant affair at Rappahannock Station.

Our informant saw the Hon, John Minor Platts, whose planting he have never the province of the provin Botts, whose plantation has been completely sacked by the rebels, and who, himself, narrowly escaped being sent to Richmond instead of being parolled. His daughter was so much alarmed and distressed by he treatment received from the rebsis that she is prostrated by a nervous fever.

the is prostrated by a nervous lever.

The army was well up to Culpopper, and a portion of it beyond that place.

From the Herald's correspondence, written at the headquarters of General Banks, Texas, the following details of the Texas expedition he notes:

On the morning of the 30th a heavy porther was experienced, raging two hours, during which time the steamer Union and two schooners went down. The steamer Zepher had her machinery broken and was taken in tow by the gunboat Owssoo.

The whole fleet, with the exception of the Union and two schooners, arrived at the rendezvous on the 3t inst. The Isading was first made on Bragg's Island on the 2d inst.

The loth Maine, Colonel Dayer commandant, started for Boca Chies, took pos-session of the pass, and encamped on the 34 inst, after a reconnoisance at the mouth of the Rio Grande a landing was effected on the Texas shore. A high surf was running, four boats were capsized, and seven soldiers and two sailors were drowned. One of the boats, after return. ing from landing her men, succeeded in picking up a large number of those who were in the water; and the Mexican shore being much nearer than the other they started for it, but the Mczicans would compelled to cross the river to the Texas side. During the whole time not an armed

rebel was seen. The same correspondent save he count ed thirty-five blockade runners in Mexioan waters, on the Rio Grands. On the appearance of the fleet off the Texas shore a series of fires were seen lighted all along the coast by the rebels.

On the 21 inst. a boat was picked up

containing two deserters from the Texas cavalry, who stated that three rebel regi-ments had been lately sent from Rio Grande to Galvesion and Sabene Paus, and a regiment of cavalry had been sent to ston, where McGruder is said to be. Most of the rebel army is said to be cattered at different points. General Saughter is said to be commander of Fort Brown, superceding General Bec. A small rebel gunboat is said to be in Solu-ria Bayou, and on Onstagorda Island, near Saluria, is a large fort mounting nine guns. A schooner laden with cotton was saized

in Texas waters on the 2d. FROM CATRO. CAIRO, November 16.
The Little Rock Democrat, of the 3d inst, says that deserters report that Marmaduke having fallen back south of the Little Missouri river joined Price on the road leading from Camden to Wash-ington. The whole Southern force is estinated between aix and eight ther Marmaduke's men are scouring the coun-try dressed in Feleral uniforms to detect Union sympathisers, many of whom have

been shot, and hung. Recruiting in the State is progressing finely.

Little Book private advices from Memphis say the rebels are reported working at the Mobile, Ohio & Mississippi Central Bailroad, repairing it north as rapidly as
